

Excel Activities Module 2 Contents

Chapter 10: Making Predictions With Excel

The Motel Template	10-1
Loading the Template	10-1
Calculating the Income From Rooms	10-1
Calculating the Income From Food.....	10-2
Calculating the Total Daily Income.....	10-3
Using the Spreadsheet to Make Predictions	10-3
Adjusting the Motel Template	10-5
The Goal Seek Command	10-8
Applying the Goal Seek Command	10-10
Exercise 10-1	10-11
Spreadsheets Assignment 10.....	10-12

Chapter 11: Making Decisions With Excel

The IF Command	11-2
Greater Than or Equal To.....	11-5
Exercise 11-1	11-6
Completing the Template.....	11-6
Displaying the Formulas Used	11-8
AND and OR	11-10
AND (a,b)	11-10
OR (a,b)	11-12
Exercise 11-2	11-14
Spreadsheets Assignment 11.....	11-16

Chapter 12: Lookup Commands

Interest Rate Calculations	12-1
Loading the Template	12-1
Calculating the Interest Due.....	12-2
Income Tax Calculations	12-4
Loading the Template	12-4
The Base Tax Calculation	12-5
The On Income Calculation	12-5
The Extra Income Calculation.....	12-6
The Tax Rate Calculation	12-6
The Extra Tax Calculation.....	12-7
The Total Tax Calculation	12-7
The Net Income Calculation.....	12-8
Using the Tax Table.....	12-8
The Equation Dump	12-9
Spreadsheets Assignment 12.....	12-11

Chapter 13: Creating Sales Invoices

Entering the Labels of the Invoice.....	13-1
Adding Borders	13-2
Shading the Table Headings.....	13-3
Creating the Company Title	13-3
Entering the Calculations.....	13-5
Initial Settings.....	13-5
Calculating the Amount.....	13-5
Turning Zero Values Off	13-6
Calculating the Sub-Total	13-7
Calculating the GST.....	13-8
Calculating the Overall Total.....	13-8
Inserting Today's Date	13-9
Checking the Invoice	13-10
Using the Invoice.....	13-10

Adding an Inventory to the Invoice	13-10
Loading the Template	13-11
Looking up the Description.....	13-11
Looking up the Unit Price.....	13-12
Setting the Blank Invoice	13-13
Setting the Print Area	13-14
Saving as a Read-Only File.....	13-14
Using the Stock Inventory.....	13-15
Exercise 13-1	13-16
Loading the Invoice	13-16
Naming the Stock Table	13-16
Looking up the Description.....	13-17
Looking up the Unit Price.....	13-18
Turning Off Zero Values	13-19
Calculating the Amount and Sub-Total	13-19
Calculating the GST.....	13-21
Calculating the Total.....	13-22
Setting the Print Area	13-22
Data Validation.....	13-23
Saving as a Read-only File.....	13-26
Using the Invoice.....	13-26
Displaying the Formulas	13-27
Spreadsheets Assignment 13.....	13-28

Chapter 14: Sharing Data Between Files

Naming Single Cells.....	14-1
Entering Formulas Using Names	14-3
Naming Groups of Cells	14-4
Loading the Template	14-4
Naming the Cells.....	14-4
Entering the Formula	14-6
Another Advantage of Named Cells	14-7
Deleting Names	14-7

Linking Spreadsheets	14-8
Loading the Outdoors Template	14-9
Entering the Formulas.....	14-9
Naming the Cells.....	14-11
Setting up the Home Department File	14-12
Setting up the Electrical Department File.....	14-13
The Dependent Spreadsheet	14-14
Loading the Office Template.....	14-14
The Net Profit Formula	14-14
The Percentage Profit Formula.....	14-15
The Totals Formula	14-16
Linking the Spreadsheets	14-16
Changing Values in a Support Spreadsheet	14-18
Looking at all the Files.....	14-19
Spreadsheets Assignment 14.....	14-21

Chapter 15: Using Macros and Buttons

Using a Simple Discount Table.....	15-1
Opening a Sample File.....	15-1
Setting a 5% Discount Macro	15-1
Setting a 10% Discount Macro	15-4
Setting a No Discount Macro	15-5
Using the Macros	15-6
Assigning Buttons to Represent Macros	15-7
Other Macros and Buttons.....	15-9
The New Items Macro and Button	15-9
The Sort Items Macro and Button.....	15-13
Looking at the Macro Steps.....	15-15
Deleting a Macro	15-16
Button Properties	15-18
The Button's Appearance	15-18
Altering a Button's Macro.....	15-19
Opening Files Containing Macros.....	15-20
Spreadsheets Assignment 15.....	15-21

Chapter 16: Payroll Systems

Loading the Payroll Template	16-1
Completing the Payroll Worksheet	16-1
The Tax Calculation	16-3
Calculating the Net Pay	16-4
Printing the Payroll	16-4
The Pay Advice Worksheet.....	16-5
Naming the Payroll Cells.....	16-5
Sorting The Payroll	16-6
Completing the Name Section of the Pay Advice	16-7
Completing the Pay Advice Table	16-9
Completing the Superannuation Section.....	16-11
Printing the First Pay Advice.....	16-12
Printing the Pay Advice for Other Employees	16-12
Using the Payroll System	16-13
Adding Macros and Buttons	16-14
Spreadsheets Assignment 16.....	16-16

An Electronic Cheque Book	17-1
Opening the Prepared Template	17-1
Completing the Formulas	17-1
Using the Cheque Book.....	17-3
The Home Loan Simulator	17-3
Opening the Prepared Template	17-4
Entering the Initial Values	17-4
Naming the Cells.....	17-5
Calculating the Monthly Interest	17-5
Calculating the Number of Repayments	17-6
Setting the Monthly Repayment	17-6
Completing the Months Column.....	17-8
The Start Balance Column	17-9
The End Balance Column	17-10
Turning Zero Values Off	17-11

The Monthly Payment Column.....	17-11
The Principal Remaining Column.....	17-12
The Total Repaid Column.....	17-12
Completing the Start Balance Column	17-13
Adding a Border After Each Year.....	17-15
Using the Simulator	17-16
Spreadsheets Assignment 17.....	17-17

Chapter 18: Date Calculations

Creating a Library Book Overdue System	18-1
Opening the Prepared Template	18-1
Naming the Book List.....	18-2
Looking up the Book Title and Author	18-3
Calculating the Return Date	18-4
The Overdue Calculation	18-5
Filling the Formulas	18-6
Using the Library System	18-7
Creating the Equation Dump	18-8
Spreadsheets Assignment 18.....	18-9

Chapter 19: Useful Tools

Help Features	19-1
The Save Options.....	19-2
Autoformat.....	19-4
Styles	19-7
The Currency Button	19-10
Spell Checking.....	19-12
Setting the Enter Key	19-12

Module 2 Projects

Project 1: Quantum Electronics	P2-1
Project 2: CompuTune Car Care.....	P2-3
Project 3: International High School	P2-5
