

Kahootz Project

Book Review - Holes

Your task for this project is to create a Kahootz Xpression based on your impressions of the book 'Holes' which you may have studied in English. You could substitute another book with your teacher's approval.

You will need to create at least 6 scenes that describe some of the scenes that you liked or found important, or on some of characters from the book. For example, you could base scenes on why Stanley was sent to Camp Green Lake, why the boys are digging holes in the desert, Stanley escaping, Stanley locating Zero, Stanley and Zero finding the treasure, the police arresting the warden, you could even create a Holes game if you have seen that on the Holes web site. Each scene should have at least one animation.

Designing The Xpression

Draw sketches on paper to show what each of your scenes will be about and indicate what text you are going to include. Include an Introduction scene with links to the other scenes

Show your planning sketches to your teacher before you start your Xpression and submit them when your project is complete.

The Solution

Produce the Xpression using Kahootz.

- 1 Create each scene, adding animations to them.
- 2 Add some text to each scene.
- 3 Link the scenes together.
- 4 Once the Xpression is complete, save and compress it, and submit it to your teacher.

Evaluation

- 1 List 6 Kahootz tools that you used and describe what each allowed you to do.
- 2 Briefly describe your impressions of the book Holes. The things you liked, disliked, etc.
- 3 Show your Xpression to other students. What were their comments? What changes would you make to your Xpression after listening to their comments?
