FileMaker Pro 10 Contents

Module 1

Chapter 1: Introduction to Databases

Loading FileMaker Pro....1-2
Opening a Sample File....1-2
Saving the File....1-3
Opening the Saved file....1-3
Looking at the Data....1-3
Searching the Data....1-4
- Finding the Number of Boys at the School....1-4
- Finding the Year 8 Students....1-6
- Finding Students Who are Under 14....1-7

Searching on Two Fields....1-8
- Finding Girls Who Are Under 15....1-8
- Finding Year 8 Boys That Have Suspensions....1-9

Practice Exercise 1-1....1-9
Showing all the Records....1-10
Sorting Records....1-11
- Alphabetical Sorting....1-11
- Sorting on Two Fields....1-12
- Practice Exercise 1-2....1-13
- Sorting on Numbers....1-13
- Practice Exercise 1-3....1-15

Unsorting Records....1-16
Combining Finds and Sorts....1-16
- Finding Students With More Than Two Police Contacts....1-16
- Sorting the Records....1-17
- Showing All the Records....1-18

Databases Assignment 1....1-19
Assignment 1 Question Sheet....1-19

Chapter 2: Creating a Database

Loading FileMaker Pro....2-1
Saving the Database....2-2
For Windows Users....2-2
For Macintosh Users....2-2
Creating a Database....2-3
Entering the Fields....2-3
Entering the Records....2-6
Adding Extra Records....2-7
Different Views of the Data....2-9
Viewing as a List....2-9
Viewing as a Table....2-10
Viewing as a Form....2-10
Scrolling Through the Records....2-11
Changing Data....2-12
Altering Records....2-12
Adding New Records....2-12
Deleting Records....2-13
Formatting Fields....2-14
Opening Layout Mode....2-14
Setting Field Alignments....2-15
Printing the Data....2-16
The Mode Popup Menu....2-18
Databases Assignment 2....2-20

Chapter 3: Standard Form Layouts

Starting a New Layout....3-1
Selecting the Layout Type....3-1
Specifying the Fields....3-2
Selecting a Layout Theme....3-2
Setting the Print or Page Setup....3-3
Looking at the Layout....3-3
Adjusting the Layout....3-4
Reducing the Space Between Records....3-4
Previewing the Database....3-5
Placing the Records in Columns....3-6
Adjusting the Fields....3-7

© Guided Computer Tutorials, 2009

Turning on Ruler Lines....3-8
Adding a Header....3-9
Formatting the Text....3-10
Formatting the Date....3-12
Adding a Footer....3-13
Printing....3-14
Databases Assignment 3....3-15

Chapter 4: Columnar Report Layouts

Creating a Columnar Report Layout....4-1
Creating a New Layout....4-1
Selecting the Fields....4-2
Changing the Order of the Fields....4-4
Sorting the Data....4-4
Selecting a Layout Theme....4-5
Setting the Header and Footer....4-5
Setting Scripts....4-6
Previewing the Layout....4-6
Looking at the Layout....4-7
Adjusting the Layout....4-7
Setting the Layout Font....4-7
Adjusting the Field Widths....4-8
Moving the Fields....4-9
Formatting the Fields....4-11
Completing the Header Part....4-12
Increasing the Header Height....4-12
Shading the Field Labels....4-13
The Layout Titles....4-14
Databases Assignment 4....4-16

Chapter 5: Creating Data Entry Screens

Loading the Prepared File....5-1
Loading the Library Orders File....5-1
Saving a Copy of the Library Orders File....5-2
Looking at the Fields....5-3
Looking at the Layouts....5-4
Creating a Blank Layout....5-4
Removing the Header and Footer Parts....5-5
The Layout Tools....5-6
The Graphics Rulers....5-6
The Text Ruler....5-6
Page Margins....5-9
Ruler Lines....5-9
T-Squares....5-10
The Object Info Box....5-10
Completing the Data Entry Screen....5-11
Inserting Fields With Labels....5-11
Inserting Fields Without Labels....5-15
Inserting the Ordering Fields....5-17
Formatting the Layout....5-19
Formatting the Field Labels....5-19
Aligning Objects....5-21
Formatting Numbers....5-22
Formatting Dates....5-23
Adding Fields Borders....5-25
Adding a New Record....5-27
Databases Assignment 5....5-28

© Guided Computer Tutorials, 2009

Chapter 6: Formatting Layouts

Using the Drawing Tools....6-1
Adding a Shaded Rectangle....6-1
Copying the Rectangle....6-4
Shading the Background....6-6
Adding a Graphic to the Layout....6-7
Setting the Field Entry Order....6-7
Entering Some Data....6-8
Formatting the Container Field....6-10
Creating a Drop-Down List....6-11
Defining the Values....6-11
Entering a Record Using the Drop-Down List....6-13
Using Radio Buttons, Check Boxes or Pop-up Menus....6-14
Radio Buttons and Check Boxes....6-14
Pop-up Menus....6-16
Calendar Menus....6-19
Field Behaviours....6-21
Databases Assignment 6....6-22

Chapter 7: Using Buttons

Loading the Prepared File....7-1
Opening the File....7-1
Saving a Copy of the File....7-1
Opening the Copy File....7-2
Looking at the Layouts....7-2
Using Graphics as Buttons....7-3
Formatting the Buttons....7-5
The New Record Button....7-5
The Find and Find All Buttons....7-7
The Delete Records Button....7-9
Buttons That Open Other Layouts....7-12

Copying Buttons Between Layouts 7-14
Drawing the Button 7-14
Setting the Button's Action 7-15
Formatting the Button 7-16
Setting the Button Not to Print....7-16
Testing the Button 7-17
Copying the Button....7-18
Setting the Opening Layout....7-20
Exercise 7-1....7-21
Databases Assignment 7....7-22

Chapter 8: Tabbed Interfaces

Inserting the Tab Control 8-1
Defining the Tab Sections....8-2
Completing the Library Details Tab 8-4
Inserting the Fields 8-4
Copying the Field and Label Formats....8-6
Completing the Subject Details Tab....8-8
Inserting the Fields 8-8
Copying the Field and Label Formats....8-10
Formatting the Price and Amount Fields 8-12
Completing the Order Details Tab....8-13
Inserting the Fields 8-13
Formatting the Fields and Labels 8-14
Formatting the Tab Control 8-15
Databases Assignment 8....8-18

© Guided Computer Tutorials, 2009

Chapter 9: Data Searching Tools

Multiple Selection Tools 9-1
Searching on one Field and Another 9-1
Searching on one Field or Another 9-2
Omitting Records 9-3
Finding Blank Entries 9-4
Finding Ranges of Data 9-6
Wildcard Characters 9-8
Practice Exercise 9-1 9-10
Finding Duplicate Records 9-10
Adding Duplicate Records 9-10
Finding the Duplicate Records 9-12
Saving Searches 9-14
Finding the Data 9-14
Saving the Search 9-15
Using the Saved Find 9-16
Editing the Saved Find 9-17
Databases Assignment 9 9-18

Chapter 10: Calculation Fields

Mathematical Calculations 10-1
Opening the Specify Calculation Dialogue Box 10-1
Entering the Calculation Formula 10-2
Combining Fields 10-3
Selecting the Layout 10-3
Defining the Calculation Field 10-4
Adjusting the Layout 10-7
Calculating Ages 10-9
Selecting the Layout 10-10
Defining the Calculation Field 10-10
Formatting the Field 10-13
Looking at the Received Age 10-15
Databases Assignment 10 10-16

FileMaker Pro Project

Andersons Real Estate P-2

Module 2

Chapter 11: Creating Scripts

Loading the Database 11-1
Creating a Script to Sort Items 11-1
- Carrying Out the Sort 11-1
- Creating the Script 11-2
- Testing the Script 11-6

Creating a Second Sort Script 11-8
- Setting the Sort 11-8
- Creating the Script 11-8

Scripts That Find Data 11-11
- Finding the History Books 11-11
- Sorting the Records 11-12
- Creating the Script 11-12
- Testing the Script 11-15

Exercise 11-1 11-16
The Books Not Yet Received Script 11-16
- Finding the Books Not Yet Received 11-16
- Sorting the Books Found 11-17
- Creating the Script 11-17
- Testing the Script 11-19

Editing Scripts 11-19
The Print Script 11-21
Changing the Order of Scripts 11-23
Using Buttons to Run Scripts 11-23
- Adding a Footer Part 11-23
- Setting the Buttons 11-25

Exercise 11-2 11-27
Formatting the Buttons 11-27
- The Buttons Appearance 11-27
- Setting the Buttons Not to Print 11-28

Copying Buttons 11-28
Printing Script Definitions 11-30
Databases Assignment 11 11-31

© Guided Computer Tutorials, 2009

Chapter 12: Item Totals

Loading the Database 12-1
Adding the Summary Part to the Layout 12-1
Defining the Summary Fields 12-3
The Total Copies Field 12-3
The Total Amount Field 12-4
Inserting the Summary Fields 12-5
Removing the Summary Fields from the Layout 12-5
Reducing the Body Part 12-5
Inserting the Total Copies Field 12-6
Inserting the Total Amount Field 12-8
Formatting the Total Amount Field 12-10
Databases Assignment 12 12-12

Chapter 13: Displaying Sub-Totals

Loading the Database 13-1
Duplicating the Purchase List Layout 13-1
Inserting the Sub-Summary Part 13-2
Inserting the Summary Fields 13-5
Sorting the Records 13-6
The Daily Purchases Layout 13-7
Duplicating the Subject Purchases Layout 13-7
Inserting the Ordered Field 13-8
Changing the Sub-Summary Part 13-10
Sorting the Database 13-12
Looking at the Subject Area Layout 13-13
Creating Scripts 13-14
The Subject Area Purchases Script 13-14
The Daily Purchases Script 13-16
Running the Scripts 13-18
Databases Assignment 13 13-20

Chapter 14: Looking Up Data From External Files

Loading the Prepared Files 14-1
The Stock List 14-1
The Invoice File 14-1
Creating the Relationship Between the Two Files 14-2
Selecting the External File 14-3
Linking the Match Fields 14-5
Setting a Lookup Field 14-6
Checking the Linking of the Item Field 14-8
Importing Data into the Price Field 14-9
Defining the Lookup Field 14-9
Checking the Linking of the Price Field 14-11
Allowing For Multiple Entries 14-12
Defining the Repeating Fields 14-12
Setting Repeats on Calculation Fields 14-13
Displaying the Repeating Fields 14-14
Using the Repeating Fields 14-16
Formatting the Invoice 14-17
Completing the Sold To Section 14-17
Placing a Rectangle Around the Date 14-18
Placing Borders Around the Repeating Fields 14-19
Completing the Totals Section 14-20
Vertically Centring the Fields 14-21
Using the Invoice 14-23
Adding a Pop-up List 14-25
Defining the Value List 14-25
Using the Value List 14-28
Databases Assignment 14 14-29

© Guided Computer Tutorials, 2009

Chapter 15: Looking Up Data From Internal Files

Loading the Invoice File....15-1
Adding Another File to the Database....15-2
Creating a New Table....15-2
Inserting the Fields....15-3
Adding Data....15-3
Creating the Relationship....15-4
The Relationships Tab....15-4
Colour Coding the Tables....15-6
Setting the Relationship....15-7
Defining the Lookup Fields....15-8
Defining a Value List....15-10
Using the Relationship....15-13
Updating Lookup Values....15-14
Turning Off Lookup Fields....15-16
Databases Assignment 15....15-18

Chapter 16: Relational Databases

Creating a Relational Database System....16-2
Loading the Prepared Database....16-3
Looking at the Tables....16-3
Defining the Relationship....16-4
The Relationship Options....16-6
Completing the Suppliers File....16-7
Adding the Product Fields....16-7
Formatting the Objects....16-10
Using the Relationship....16-13
Deleting a Supplier....16-13
Adding a New Supplier....16-15
Advantages of Relational Database Systems....16-18
Databases Assignment 16....16-19

Chapter 17: Portals

Opening the Database 17-1
Duplicating a Layout 17-1
Inserting the Portal Frame 17-3
Formatting the Portal Fields 17-5
The Text Formats 17-5
Altering the Field Widths 17-6
The Number Field Formats. 17-8
Portal Field Labels 17-9
Editing Portals 17-13
Scroll Bars 17-13
Deleting Portal Records 17-14
The Portal Fill Colour 17-15
Using the Portal Frame 17-16
Adding Records 17-16
Deleting a Product 17-18
Deleting a Supplier 17-20
Printing Portal Records 17-21
Looking at Multiple Layouts 17-22
Databases Assignment 17 17-24

Chapter 18: Sales Invoice Systems

The Customer to Invoice Link 18-1
The Invoice to Products Link 18-1
An Updated File Relationship Diagram 18-2
A File Structure Diagram 18-2
The Required Reports 18-3
Looking at the Prepared Database 18-3
Loading the Invoice Database 18-3
The Prepared Layouts 18-4
The Invoice Layout 18-4
The Customer Table Layouts 18-5
The Products Table Layouts 18-6
Looking at the Relationships 18-7

© Guided Computer Tutorials, 2009

Creating the Items Sold Table....18-8
Defining the Items Sold Table....18-8
Defining the Fields....18-8
Creating the Relationships....18-9
The Products and Items Sold Relationship....18-9
The Invoice to Items Sold Relationship....18-10
Completing the Items Sold Table....18-11
The Product Name Field....18-11
Adding the Retail Price Field....18-12
Adding the Sale Amount Field....18-13
Formatting the Items Sold Layouts....18-15
Adding Some Test Data....18-15
Creating a Columnar Report....18-15
Formatting the Layout....18-18
Completing the Invoice Layout....18-19
Setting an Auto-Enter Field....18-19
Completing the Invoice Details Section....18-20
Completing the Products Section....18-23
Adjusting the Portal Field Widths....18-24
Adding Portal Field Labels....18-25
Formatting the Portal Fields....18-26
Setting a Product ID Value List....18-27
Adding Totals to the Invoice....18-29
Defining the Sub-Total Field....18-29
Defining the Tax Field....18-30
Defining the Overall Total Field....18-31
Placing the Total Fields in the Layout....18-32
Adding Some Finishing Touches to the Invoice....18-34
Resetting the Files....18-35
Resetting the Invoice File....18-35
Resetting the Items Sold Table....18-37
Using the Invoice System....18-37
Entering the First Invoice....18-37
Looking at the Items List Layout....18-39
Adding the Other Invoices....18-40
Databases Assignment 18....18-42

Chapter 19: Reporting From Invoice Systems

Opening the File 19-1
Creating the Product Totals Layout 19-1
Duplicating the Items List Layout 19-1
Setting the Summary Fields 19-2
Inserting the Summary Parts 19-3
Adjusting the Layout 19-5
Inserting the Grand Summary Fields 19-8
Sorting the Data 19-9
Creating the Product Totals Script 19-10
The Monthly Sales Report 19-12
Duplicating the Product Totals Layout 19-12
Calculating the Month 19-13
Adjusting the Layout 19-16
Formatting the Month Values 19-17
Altering the Sub-Summary Part 19-18
Sorting the Data 19-19
Creating the Monthly Totals Script 19-20
Adding Another Month's Sales 19-21
Databases Assignment 19 19-24

Chapter 20: Useful Features

Importing Data From Other Data Sources 20-1
Loading the Prepared File 20-1
Importing a File 20-1
Importing Records to Tables 20-4
Creating Mailing Labels 20-6
Creating the Labels Layout 20-6
Specifying Label Contents 20-7
Formatting the Labels Layout 20-9
Sliding the Layout Objects 20-11
Access Privileges 20-12
Setting the Administrator's Password 20-12
Setting the Guest Account 20-14

© Guided Computer Tutorials, 2009

Defining Groups of Users 20-17
Defining the Account.....20-17
The Account Settings.....20-18
Using the Account.....20-19
Charting Data 20-20
Loading the Prepared File.....20-20
Creating the Total Sales Field 20-21
Formatting the Total Sales Field.....20-22
Adding the Percentage Fields 20-23
Adding Chart Bars.....20-25
Formatting the Chart Fields 20-29
