

Photoshop Project

VicSports

VicSports is an organization set up to promote sport in schools with the view of improving the fitness of young people. It has received funding from the Government and it has employed you to produce some of the advertising materials. Two documents are required:

- The design for the opening page of their web site.
- A photo collage poster that shows the different sports that young people could participate in.

The information required for the publications is provided on the next page of this document. It will be up to you to find appropriate graphics and decide on the appropriate arrangement of the pages.

Investigation

Find some sports images that you can use in your documents.

Planning

Draw planning diagrams for each page. Your final solution does not need to look exactly like your original planning diagrams.

Solution

Produce the two pages and print a copy of each one or submit them electronically.

Evaluation

- 1 Describe the Photoshop tools you used to complete the pages.
- 2 How has using Photoshop made the production of these pages more efficient?
- 3 How has using Photoshop made the production of these pages more effective?
